## Heli-Cushions

**UltraLeather™** is a luxurious material that is exceptionally durable . It was designed for high wear applications. Cleans effortlessly. It maintains a subtle grain pattern over time that duplicates the surface of genuine leather. UltraLeather is a durable polyurethane alternative to leather. It exceeds heavy-duty industry abrasion standards by more than 13 times, surpassing 400 000 double rubs.

Headliners	Carpets

### High quality seating:

Made with high resilience urethane foam to minimize bottoming out effect and to ensure long lasting cushions. Seats include firm back section like the originals and ready to install hinges. Foams coated with fire retardant.

### Regulatory conformity

Assembly / Flame Resistant
