## TOWCARTS

Models	Wheels	Lift	Additional information
V102	Traction : 2x 10" (25cm) Swivel : Hard	Manual Hydraulic	- Designed especially for Robinson helicopters - Great non marking wheels - Compact dimensions
V201	Traction : 2x 13" (33cm) Swivel : Pneumatic	Electric	- Extra traction for uneven or soft terrain - Wide range of helicopter model towing
V204	Traction : 2x 13" (33cm) Swivel : Pneumatic	Manual Hydraulic	- Unit same as V201 except for hydraulic lift - Extra strength lift allows R44 towing from rear when accessories installed below cabin conflict with front towing application
V404	Traction : 4x 13" (33cm) Swivel : Pneumatic	Electric	- The ultimate in power and traction for heavier helicopters. - Tows even more helicopter models - Tows up to 5 600lbs (2 540k)
