

Power Supply Option is also known as a **Auxiliary Power Unit (APU)**

Features	Specifications
Cell capacity	170 amp hr
Batteries	Power from the Tow cart's or Heli-Carrier's own batteries
Battery capacity	See Tow Cart or Heli-Carrier Specification
DC output	24 volts
AC Input (battery charger)	120 volts 60 hz, 220 volts 50/60 hz
Output current (continuous)	35 amps
Wires	1/0 AWG wire 175 amps
Battery charger	8 amps constant current
Recharge time	8 hours
Ambient operating temperature	-20°C to 50°C
Protection	360 amps switch (maximum) UL/CE
Display	Led state of charge display
Input connector	6216 Polarized A/N plug kit

There is no peak current management in our system since you are connected directly to a battery source of 170 amp hr. The power unit will give the necessary amps needed to your system as long as it does not exceed 360 amps for 30 seconds.

\*\*Basket supplied for V201 & V404 only.  
All other tow carts already feature a receptacle to store cables.
