**€ 2555.**

**£ 2235.**

*"The V90 is a special edition economical version of the V102. It features the same high quality motion components as the well known V102 model. Design has been reviewed by transforming the double swivel wheel into a monocyclus swivel wheel system. The compact double-fold V102 arm has also been replaced by a rigid arm on the V90. Performance and ease of use have been maintained. The V90 is an excellent & fun to use unit"* **Nathalie Barbeau, VP Commercial Affairs**

**The V90 features:  
Helitowcart's renowned  
high quality characteristics:**

- Safest Attachment Block on Market
- Powerful 300 Watts Motors
- Reliable Controller System
- Long Range & Silent Operation
- &
- User friendliness!
