Traction

**Large Pneumatic
Traction wheel
16"x 6" (40 x 15cm)**
For challenging terrain

Pneumatic wheels
On V1020

Hard wheels on
V1022 & V1030

Advantages

100% Effortless Attachment
Lifts Helicopter Completely
Helicopter Wheel Free

Fun Hand Grip Control
Front helicopter Operation
Simple Attachment Hooks

Ideal for Challenging Surfaces
With Heavy Duty Construction

Simple & Precise Operation
Complete handling in less
than 5 minutes.

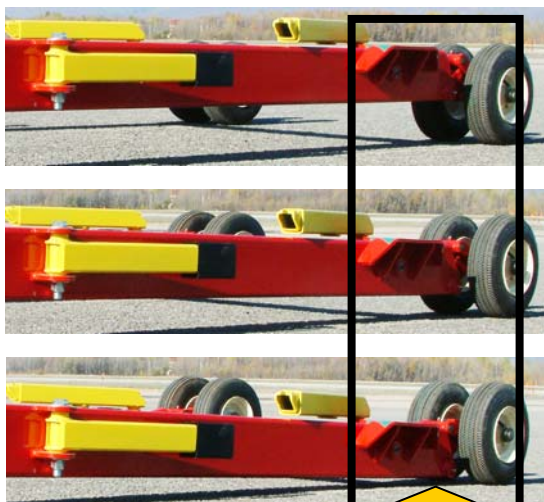

Attachments

AT1000-EC130 shown

Lightweight & simple Attachments
Effortless Attaches in seconds
Easily adjustable arms
 Ideal for non precise carrier positioning

Lifting system

7" (18cm) Bottom clearance
 For uneven surfaces

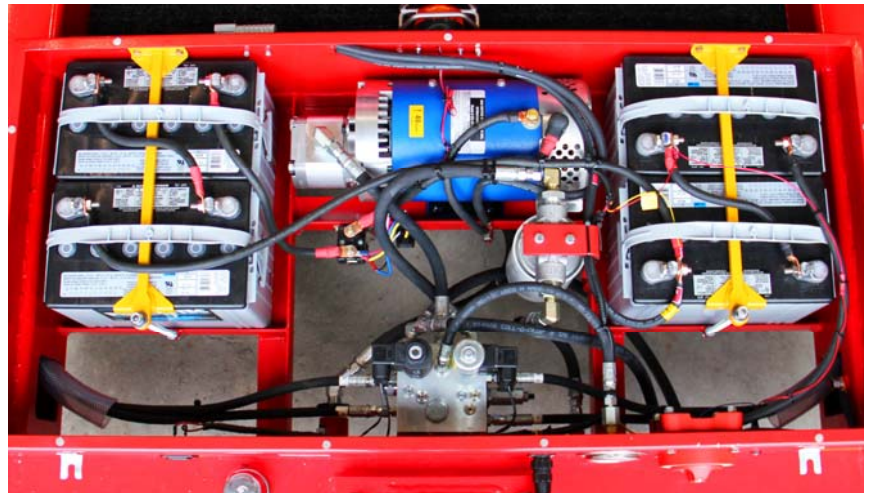

Heavy duty hydraulic lift

Batteries

12 volts deep cycle
 Group 24 or 27 size
 Tow cart requires 4 batteries

Electric-Hydraulic Pump

Continuous use hydraulic pump for intense FBO ops

The V1000 series Heli-Carriers:

Float Option

Pivotal Arm option
 Ideal to contour
 Pop-out floats
 equipped skids

APU Option

24v APU option
 Great 2nd application
 from Heli-Carrier
